

Year 2

Spring 2

The Seaside

Self Motivated	Healthy	Imagine and Create	Nurture	Exciting
We will be brave and stay positive when faced with new learning.	Recognise that keeping healthy and safe applies to all aspects of our lives including the how we interact with our friends.	Use our imaginations to create our textured sea scape.	We will consider the qualities we need to shine as the new year begins.	We will explore our geography and look at the our oceans, continents and the difference between human and physical geography.

As mathematicians we will:

Continue to work on multiplication and division skills and how they are related to each other. We will delve deeper with our understanding by making use of a variety of representations before moving onto length, height, mass, capacity and temperature.

As writers we will:

We will be focussing on writing to entertain this half term using the texts 'The Storm Whale' and 'Dolphin Boy' which link to our seaside topic. The children will write character descriptions and setting descriptions and adventure tales.

As readers we will:

Continue to develop our reading skills in our reading practice sessions through the careful focus on decoding, prosody and comprehension skills. We will also be building confidence with our independence through Accelerated Reader.

As scientists we will:

We will be learning about materials and their uses. We will focus on how different materials are suited to different uses and find out how certain materials can be changed through squashing or stretching.

RE

As theologians we will:

We will explore the Muslim religion by identifying who is Muslim and how they live.

History

As historians we will:

None this half term.

Geography

As geographers we will:

be exploring our own seaside in the UK and comparing it to that of a tropical island. We will be able to name and locate all of our continents and oceans as well as identifying the difference between human and physical geography.

Art

As artists we will:

Making use of primary and secondary colours to create as well as different brushes to create our own textured sea scape.

Computing

As programmers we will:

Developing our understanding of questions and how we can present our answers to show what we have found out.

DT

As designers we will:

None this half term

Music

As musicians we will:

Experiment with beat and pitch and exploring sounds through a variety of musical stimuli.

PE

As athletes we will:

Develop our striking and fielding skills by making sure we are aiming accurately and hitting a ball at a target.
