# St Michael's C of E Primary School Early Years Policy

Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right. Good parenting and high quality early learning together provide the foundation children need to make the most of their abilities and talents as they grow up."

"Statutory Framework for the Early Years Foundation Stage",
Department for Education, 2012

At St Michael's C of E Primary School, we are committed to providing a high quality early years' education, which gives children a secure and confident start to their school life and nurtures a lifelong love of learning. We are fully committed to the purpose and aims of the Early Years Foundation Stage Framework.

# **Staffing and Organisation**

At St Michael's C of E Primary School, we have two Reception classes that have the use of a large classroom each and a shared outdoor area. The classrooms have a carpet area and the rest of the space is organised into learning zones for the children to access independently. There are currently three teachers (1 full time, 2 job share), supported by 4 full time and 1 part time teaching assistants.

Staff are organised to support the children in a balance of adult led and child initiated experiences throughout the day. All sessions include free flow access to the outdoor area. Practitioners are aware of the need to be flexible in order to respond to unplanned events that the children are interested in.

# **Planning**

The Early Learning Goals are the knowledge, skills and understanding which young children should have acquired by the time they reach the age of five. There are three prime areas of learning:

Communication and Language
Physical Development
Personal, Social and Emotional Development

In addition, there are four specific areas of learning:

Literacy Mathematics Understanding the World Expressive Arts and Design

Our planning has a sharp focus on the children's needs, their interests and their stages of development. We recognise that the seven areas of learning cannot be delivered in isolation and seek opportunities to make links between them. We aim to deliver the curriculum through planned, purposeful play and present new concepts in meaningful contexts that enable the children to build on what they already know.

## **Medium Term Planning**

At St Michael's C of E Primary School, we deliver a creative and responsive curriculum, which is based around a new topic each half term or term, based on the children's interests. A half termly overview shows the key learning experiences for each area of the curriculum. Practitioners use this flexibly, choosing learning experiences to meet the needs of the children. At the beginning of each topic, practitioners, using the talking tub, lead the children in discussion and mind mapping to identify areas that they are particularly interested in. These ideas are incorporated into planning through the use of a floor book.

# **Short Term Planning**

Short term planning shows the learning opportunities that will be available over the week as well as showing how the learning environment will be enhanced in response to prior observations and assessment of the children. Daily planning includes differentiated adult led experiences, and identified focus children, based on next steps in their learning. Children also are very involved in the planning process through the use of the floor book, which will highlight potential lines of development based on children's interest.

# **Effective Teaching and Learning**

We aim to provide an attractive, challenging learning environment that offers high quality opportunities for the children to learn through play, both indoors and outdoors. There is a range of "continuous provision" available in the classroom that is designed to offer openended, practical learning opportunities. Children are supported to think creatively and imaginatively and explore how resources can be adapted. Each week, the provision is enhanced with additional resources, based on prior observations and potential lines of development from the floor book.

Adult led activities are practical in nature and based on first hand experiences wherever possible. The children are supported to develop problem-solving skills through open-ended tasks and opportunities to share their thinking with others. The number of adult led activities that the children take part in increases throughout the year, as their concentration develops.

#### **Observation and Assessment**

At St Michaels Primary School, we use a range of strategies to gather information about the children's learning and development and use this information to ensure that our planning meets the needs of all learners. During child initiated activities, practitioners make observations of the children's learning. Notes about guided activities are also recorded. Each child has an electronic 'Learning Journey' and all observations are gathered here along with examples of work and parental contributions.

During the first few weeks of the autumn term the Reception teachers will use a baseline assessment to show the level children are working at as they enter Reception. This allows learning opportunities to be pitched appropriately and also provides a baseline of the children's attainment. Each half term children are assessed against the development matters statements and these scores are analysed, with key actions identified, to ensure that all children are making good progress.

In the Summer term, practitioners consider the 17 ELGS in the EYFS Profile to decide whether each child is working at the expected levels, exceeding the levels or have not yet met the levels. Judgements against the ELGs are based on ongoing observation; all relevant records; discussions with parents and carers, and any other adults whom the teacher, parent or carer judges can offer a useful contribution.

The results of the Profile are shared with parents and/or carers, and there are opportunities for them to meet their child's class teacher to discuss this information.

At the end of the year, Year 1 teachers are given a copy of the Profile report together with a short commentary on each child's skills and abilities in relation to the three key characteristics of effective learning. This helps to create a smooth transition and assists with the planning of activities in Year 1.

The EYFS profile results are reported to the local authority, who monitor and moderate the judgements made.

### **Learning Environment**

We aim to create an attractive, welcoming and stimulating learning environment which will encourage children to explore, investigate and learn through first-hand experience. Resources are clearly labeled and organised into learning zones, enabling the children to access them with a high level of independence. Practitioners regularly evaluate the effectiveness of the areas and make adaptations as necessary, changing provision throughout the year to meet the current needs of the cohort.

# **Parent Partnerships**

We value the contribution that our parents and carers make to their child's learning and take every opportunity to work in collaboration with them. Each half term, we publish a newsletter to inform parents of what their child will be learning. On the school website there is a half termly curriculum overview showing what will be covered that term. At the beginning of the school year we offer home visits and parents meetings to all parents. In the

Autumn and Spring terms we hold parents' consultations and in the Summer term we send home detailed reports. There are regular opportunities for parents to view their child's learning journey each half term. We welcome contributions from home and provide wow cards for parents and carers to complete. The children take reading books home to share and can also choose a book each week from our lending library. Each year there is a parent's workshop to explain how literacy and numeracy is taught and ideas to help their child at home.

#### **Community Links and the Wider World**

Over the year, we arrange visits from members of the local community to support our topic work. We also arrange trips for children in the EYFS within the local community, for example visiting the boating lake. The children take part in an educational visits linked to their topic work. Non-fiction texts and artefacts are also used to introduce new concepts in real-life contexts. We aim to develop the children's awareness of other cultures through learning about British values, different countries and celebrations.

### **Behaviour Management**

Please refer to the school's 'Behaviour Management' policy.

# Safeguarding

Please refer to the school's 'Child Protection' policy.

## **Inclusion and Equal Opportunities**

We have a responsibility to ensure positive attitudes to diversity and difference. We can support each child's needs by:

- removing or helping to overcome barriers where these already exist;
- being alert to the early signs of needs that could later lead to difficulties and responding quickly and appropriately, involving other agencies as required;
- stretching and challenging all children.

Please refer to the school's 'SEN', 'gifted and talented' and 'racial equality' policies.

# **Premises and Security**

All visitors to the school must report to the main office. The office staff are responsible for verifying the identity of any visitors before they enter school. Visitors are asked to sign in to the school visitor's log and are given a visitor sticker to wear. Staff are aware of their role in challenging anyone who is not recognized and asking for identification from anyone claiming to be from an outside agency.

The external doors of the classroom are closely monitored by staff when children are entering or leaving the setting, to ensure that they cannot leave unaccompanied. The

register is used to check how many children are present. When moving from one area school to another, head counts are used to check that all children are present before leaving.

#### **Arrival and Collection of Children**

Children can enter school from 8:40 until the bell goes at 8:50. Each child is marked in on the day's register by the class teacher. Parents/carers use the external classroom doors when collecting their child(ren) at the end of the school day. If a child needs to be collected during the school day, parents report to the school office.

Under no circumstances is a child allowed to leave with anyone other than those named on the child's registration form, unless the parent has given verbal or written permission. If there are queries regarding a child's collection, the class teacher will contact the child's parent/guardian to discuss the situation with them.

If a child is not collected and the parent/guardian is uncontactable, the other names on the child's registration form will be called to collect the child.

#### **Outings**

Written parental permission to take the children into the local environment is sought upon admission to the school. Further permission is obtained for any other outings. Risk assessments are completed for each type of outing.

# **Complaints**

Please refer to the school's 'Complaints' policy.

#### **Information for Parents and Carers**

We provide a pack for new parents and carers that includes information about our daily routines, the types of activities provided, staffing and food and drink. There is a parent's notice board on the external door of each classroom that is regularly updated.

#### Transition from Pre-school to Reception

Please refer to the school's 'transition' policy.

#### **Transition from Reception to Year One**

In the Summer term, we begin a programme of transition to support the children with their move to Year One. This involves 3 afternoon visits to the Year One classroom, giving the children a taste of their new class and the opportunity to get to know their new teacher. A floor book is started in these sessions, to be continued when the children move classes. There is a transition meeting for parents held in July and another meeting at the beginning of the new term to give more details on the Key Stage One curriculum.

The first half term of Year One follows on from the principles of the EYFS, allowing the children to feel secure in their new environment. All children that have not achieved the Early Learning Goals at the end of the Reception year will continue to work from the Foundation Stage curriculum for the first term in Year One.

#### **Food and Drink**

We provide a 'free flow' snack area in the Reception classroom. A range of healthy snacks are available, supplied by "The School Fruit and Vegetable Scheme". Children are supported to wash their hands with soap before selecting a snack and pouring their own drink. The snack bar is accessible throughout the day, allowing the children to make decisions about when they are hungry and thirsty. Fresh drinking water is available at all times.

Information about the children's dietary needs is sought when they enter the setting through home visits and parent meetings. A list of the children's dietary needs is available in the classroom and all practitioners have regard to this when putting out food and drink in the snack area or when leading a cooking or food tasting activity.

The school dinner menus are displayed on the website so that parents and carers can support their children to choose their food.

# Illnesses, Injuries and Medicine

Please refer to the school's 'Medical Conditions' policy.
