

*St Michael's C of E Primary School*

## **SUSTAINABILITY**

- A school healthy schools team is established that includes sports leaders. This group meets regularly and ensures provision, policies and events are put in place. This is not reliant on future sports funding.
- Real P.E has been purchased for the whole school which included staff training. This is sustainable as new staff are inducted by existing staff.
- External coaches have been employed to upskill regular staff.
- P.E teaching is sustainable from the school budget and is not reliant on additional P.E funding.
- New resources have been purchased. These can now be updated on a rolling programme.
- Enrichment clubs are sustainable as these take place during directed time and are now resourced.
